Committee Completes Study of Torrance High School Programs

A five-man committee from the California Assn. of Secondary School Administrators visited Torrance High School last week in the final step in a year-long self-evaluation program.

The committee, headed by Dr. Willard H. Van Dyke, Long Beach State, was invited by the Board of Education last year as part of a new evaluation-accreditation program in California schools. The program involves intensive study of a high school by its administrators and teachers and preparation of a report on their observations.
